SNAKE EYES VENOM™ BLINDS

THE MOST VERSATILE WINDOW CONFIGURATION

6-Panel Window Configuration

Snake Eyes Venom blinds have the most versatile window configuration. The 6-panel design allows for horizontal window opening, vertical window openeings, or both. The options are limitless. The windows also dip low allowing for sitting shots, and all Snake Eyes Venom blinds come with removable zippered shoot-through mesh windows.

100's Of Brush Holders

Snake Eyes Venom blinds are the first hub blinds to feature rows of brush holders similar to water fowl layout blinds. When 'brushed in' the blind truly disappears, a necessity when hunting whitetails.
